Subject: additional prep for WDNR director's call -- Sheboygan Kohler Andrae ozone monitor

Hi Ed,

By way of further preparation for your call tomorrow, WDNR has posted their [2019 annual network plan](#) for public comment. The Sheboygan Kohler Andrae has been excluded in accordance with WI Act 159. Below are screenshots of the only two references to the monitor:

- From the Summary of Significant Network Changes from the 2018 Annual Network Plan on p. iv:

*The Kohler Andrae monitor was not placed to monitor the maximum downwind impacts from the urbanized portion of the Sheboygan area, but to capture maximum downwind impacts from several urban areas along Lake Michigan, including Milwaukee, Wisconsin; Chicago, Illinois; and Gary, Indiana.
